TECH IT OUT

ROBOTICS

**"It's a camp
just add Robot!"**

SUMMER 2012

What is TECH IT OUT Robotics?

TECH IT OUT Robotics is a high tech interactive day camp where kids and teens learn how to build, program and compete with a robot of their own design in small teams. While having fun, youth are engaged in teamwork, as well as computer programming, problem solving using math, robot engineering design concepts and critical thinking.

Who can attend? What will they do?

Kids & Teens ages 7-14 Years Old

AGES 7-8 build, program & create with LEGO WeDo Robots.

AGES 9-11 build, program, and test with LEGO NXT Robots.

AGES 12-14 build and program in ROBOTC with VEX Robots.

Light snacks, drinks, and lunch is included.

Free T-Shirt for campers registered before May 7
